Work experience — 3 years 7 months

June 2023 —
December 2024
1 year 7 months

UIC Group

Tashkent

IT, System Integration, Internet

- Software Development

Lead Software Engineer (Backend)

As a skilled Backend Engineering Team Leader at UIC Group, I have adeptly harnessed cutting-edge technologies to architect and optimize high-performance systems. Leveraging my expertise in Docker and Docker Compose, I've orchestrated seamless deployment pipelines. My proficiency in Nginx and OpenResty, combined with Lua scripting, has empowered me to create robust and efficient server environments, delivering exceptional user experiences.

I've seamlessly integrated powerful search engines like Elasticsearch and Typesense, elevating our data retrieval capabilities to new heights. Collaborating closely with my team, I've expertly integrated these technologies into our Python Django applications, enhancing overall system functionality and responsiveness.

Zako IT Academy

Python Teacher

1 year

Taught students to develop web applications using Python Django, work with databases, and create Telegram bots.
Designed and delivered practical programming courses, emphasizing hands-on experience with modern tools and technologies.
Focused on real-world applications to ensure students could effectively apply their skills to professional projects.
Developed a personalized teaching approach, enabling students to quickly grasp complex concepts and build confidence in programming.
Contributed to fostering a learning environment that encouraged innovation, problem-solving, and collaboration.

June 2021 —
December 2021
7 months

LWC Company
Backend developer

Collaborated as part of a 5-7 member team to develop the backend for web and mobile applications using Python Django.
Designed and implemented a Telegram bot to enhance user interaction and automate processes.
Contributed to the development of multiple startup projects, gaining hands-on experience in creating scalable and efficient backend systems.
Gained foundational skills in software development, teamwork, and delivering solutions within tight deadlines.
